

BNF

The British National Formulary

The vital drug information resource for supporting clinical decision making when selecting medicines

TRUSTED • INDEPENDENT • INTERNATIONAL • RIGOROUS • BROAD • TIME SAVING

Unrivalled guidance on prescribing, dispensing and administering medicines. Used daily by healthcare professionals in over 30 countries as their primary source for minimising medication errors.

Combining the best evidenced-based guidance, enhancing it with practice expertise and then validating the content under the authority of a wide network of clinical experts, the BNF is an unparalleled, unbiased and internationally recognised source of practical advice.

It is the only drug formulary in the world that is both independent and has a rigorous content creation processes accredited by NICE.
